

## Super Fine Blend, the perfect harmony between wood and wine

**It is an ideal of perfection which led to the creation of the Super Fine Blend barrel. A subtle blend of the origin of the wood and the tightness of the grain, this barrel has been satisfying the most demanding winemakers' requirements for many years.**

The wood we select is rare and is subject to a specific purchasing policy in the finest forests.

Super Fine Blend is therefore produced in limited quantities, depending on the raw material available. This is also what makes it a very sought-after barrel, singled out by the most prestigious wine estates all over the world.

The tightness of its grain gives the wine maximum aromatic complexity, released gradually during aging, giving a delicate structure with fine, soft tannins. Its very high aromatic potential, with gentle extraction, represents a real investment in quality for winemakers. Super Fine Blend is recommended for long aging periods and can show its worth over several winemaking cycles.

**Super Fine Blend is the most widely distributed premium barrel in the world today.**
